Wine Description:

Located in D.O Penedès, the heart of CAVA, consists of 35 hectares of deep soils, including sand and clay, which are porous yet retain rainwater. The soil is poor in organic matter, calcareous and infertile, but with a high level of magnesium content which brings the acidity necessary to maintain the freshness in our cavas. It also brings good structure and character to our wines. The altitude is 380 meters above sea level.

Tasting Note:

APPEARANCE: Our cava Brut has a bright, fresh colour with gold nuances, fine delicate, persistent bubbles.

TASTE: It has a beautiful texture and vibrancy on the palate; light, well- balanced, fine acidity, rounded and elegant, memory of sweet fruits, and lingering finish of sweet orange. Good persistence.
