

30° SOUTH

Cabernet Sauvignon

- Varieties: 100% Cabernet Sauvignon
- Type: Red
- Region: South of Australia, Australia
- Alcohol Level: 13.5%

Wine Description:

A warm start to the growing season followed by mild ripening conditions during autumn has allowed a long slow ripening period leading to the grapes with concentrated richness and colour.

Tasting Note:

The wine is maroon in colour with bright purple hues. Aromas of classic Cabernet abound, showing blackcurrant, cassis and dusty oak, with a palate of generous plum and dark berry flavours, and a subtle vanilla oak influence.
